

Easily navigate your portfolio's health care spending

It is possible to lower your portfolio's health care costs and free up more money for investment and growth. Our dedicated private equity benefits team can show you how.

Group buying power

Aggregated purchasing leverages the buying power of all your portfolio companies for competitive pricing. Each company can choose the funding arrangement and plan design that best fits their business.

Sophisticated analytics

Advanced analytics and reporting help reveal opportunities to improve the financial, clinical and employee engagement strategies in your health plan.

Healthier workforce

UnitedHealthcare offers innovative tools and programs that may help make it easier for employees to get healthier and manage chronic conditions — with incentives designed to help reduce health care costs and boost productivity.

Strong national network

With an extensive network, including more than 1.7 million physicians and health care professionals and over 7,100 hospitals nationwide,¹ UnitedHealthcare members can have access to quality care wherever they are.

Our dedicated call team can help support your employees

Using integrated data and technology and backed by a strong investment in health care, excellence in compassion and a human touch, our dedicated call team helps your employees and their family members make informed decisions and guides them to quality care — all with an eye toward improved outcomes and lower costs.
