Support with a personal touch

Connect with an Advocate by phone or on the UnitedHealthcare® app to get the information you need, when you need it. Specially trained Advocates are here to help you understand your benefits, make more informed health care decisions and access the care that fits your needs.

Make sure everything checks out

Preventive care—such as routine annual checkups and certain recommended screenings and immunizations—is covered by most of our plans for \$0 out-of-pocket when you see network providers. A preventive care visit may be a good time to help establish your relationship with your primary care provider and create a connection for future medical services.
