What to do if you need care

Finding the right care

Follow one of the steps below, depending on the nature of your need.

- If your medical need is an emergency, go to the nearest hospital or medical facility so as to not delay care.
- If not an emergency, call the number on your ID card and connect with a Global Care Consultant (GCC) who can help you locate appropriate care at a qualified facility near you.
- If you are hospitalized, call the number on your ID card. Our Clinical Care team will contact the treating physician to assess your treatment plan. If it is determined that local facility is inappropriate for the treatment you need, we will coordinate a medically safe evacuation to a facility capable of providing the necessary care. We will contact the individuals you have identified as your emergency contacts as well as your employer. We will stay with you and assist until you return home or receive your final treatment.

There may be some circumstances when you need care from a provider who does not have a direct payment agreement with UnitedHealthcare Global. In this instance, the provider may require a Guarantee of Payment (GOP) from us before providing services. If a GOP is required, we can issue a GOP and arrange a direct payment for services.

Submit a claim

When you receive medical care, the provider may require you to pay for your care at the time of service. This is called an out-of-pocket expense and should be submitted for reimbursement.

Getting reimbursed for medical services is easy.

1. Visit the [Global Intelligence Center](#)
2. Download and complete the claim form and submit it via email, fax or mail
... or
3. Simply complete the online claim form

Each claim is different and processing times vary, but most claims are processed for payment within 14 business days. Payment processing times vary by payment method and banking institution, but in general should take no longer than 7 additional business days.

Claims assistance is available 24/7
