

# Say hello to the Designated Diagnostic Provider benefit

Designated Diagnostic Providers (DDPs) are laboratory and imaging service providers that meet certain quality and efficiency requirements.

With your DDP benefit, you'll have the highest level of coverage – and likely save money – when you use a DDP for outpatient lab and imaging services. If you don't use a DDP, your services may receive a lower level of coverage and you may be responsible for a higher out-of-pocket cost.

## Find a lower-cost DDP near you

Sign in on the UnitedHealthcare® app or at [myuhc.com](https://myuhc.com)®, select **Find Care** and then **View All Care** to search for a preferred facility.

### DDP outpatient lab and imaging services

Using a DDP may help you save money on many services, including:

#### Lab services

- Blood draws
- Blood glucose tests
- Metabolic tests/panels
- Rapid strep tests

#### Imaging services

- CT and PET scans
- MRI/MRAs
- Nuclear medicine scans
