

Making it easier for your employees to find the right providers.

The UnitedHealth Premium® Program and Tier 1 designations make choosing providers simpler.

Premium Program

With a wide network of providers, knowing where to get quality care that's designed to be affordable can be a challenge. The UnitedHealth Premium Program evaluates physicians who provide quality and cost-efficient care. Physicians are evaluated in various specialties using evidence-based medicine and national standardized measures. The Premium designation can help your employees locate quality and cost-efficient providers and review their options when choosing a doctor. Two blue hearts, signifying "Premium Care Physician," identify those physicians who meet UnitedHealth Premium Program criteria.

Tier 1

Your employees can easily choose the doctors, specialists and facilities that offer the greatest value for their benefit plan by choosing a Tier 1 provider. Tier 1 providers may charge less than other providers for the same services. Members just need to follow the steps on the next page and spot the blue dot. The blue Tier 1 symbol will be seen only by members with a tiered benefit plan.
