Care provider counts include core MD/DO physician types excluding hospital based physicians. Hospitals must have an ER and 24-hour services to be included.

## A National Leader

We deliver products for all employer and employee segments – including consumer-driven plans, voluntary specialty products, discount programs for non-covered services, and basic medical coverage for part-time workers.

**National network access:** At the heart of our benefit strategies are innovative network capabilities that can be configured to meet the specific population needs and cost considerations of employers. These networks support plan and benefit designs that build greater accountability into the system and generate savings. With over 6,200 hospitals, 67,000 pharmacies and 1,100,000 physicians and other health care professionals, we can design a network to help you better control costs and meet the unique health care needs of your employees. Our network strategy is a key component in helping to transform the health care delivery system and is built on our vision, which is to create the most effective, enduring connections between care providers and consumers to achieve the best health outcomes, cost of care and experience. We achieve our vision through:

- Creating networks tailored to each market's unique needs and competitive cost structure
- Collaborating with providers to share data and insights to support consistent, high-quality clinical outcomes
- Connecting individuals with tools and information to engage them in finding the right providers and the right care

Through our work we are transforming health care delivery into an integrated system that delivers better cost controls, better experience and better health for our consumers.

The UnitedHealth Premium® program provides physician designations based on quality and cost efficiency criteria to help members make more informed and personally appropriate choices for their medical care. Physicians may also use these designations when referring patients to other physicians. Employers may choose to offer their employees a tiered benefit plan, which may provide an enhanced benefit in the form of lower member cost share for using Premium Care Physicians.
